SHAKE-UP IN FIRE DEPARTMENT; ZIGLER TAKES JONES' PLACE

Chief Jones resigns and Company is reorganized—J. J. Zigler made chief—Other men kept.

Chief Morgan Jones of the Dothan Fire Department handed in his resignation yesterday to Chief J. J. Zigler. It was accepted and J. J. Zigler has been put in to run the new fire truck via mail chest in the place of Jones.

The other members of the team pay Russell Little for Russell and James Barnett are retained. It has been aptly suggested that it would be a good idea to have the members of the fire department become more familiar with every building in the business district of the city. It is thought that if the members were informed at all times just what part of building is inflammable material and where powder and dynamite is stored in the hardware stores and where oils and gasoline is kept. All of this is information that should be valuable to the firemen. To keep familiar with the situation they should visit and personally inspect all buildings regularly when it was found that Indiana material was kept in a careless manner about a building suggests it could be made which if started could cause the loss in Dothan during the year very materially.

Firemen are supposed to be in just where every fire plug is in the city and at the same time it would be of equal importance to know just what kind of goods are stored in every building in the city.

THE SALVATION ARMY'S PICNIC WAS A TREMENDOUS SUCCESS

Capt and Mrs. McVee Host and Hostess at Delightful Outing.

The Salvation Army picnic, in charge of Capt and Mrs. J. W. McVee, is being given at Richards Springs today. Before 8 o'clock the crowd had gathered on the court house lawn on West Main street from where they were taken to an automobile to the picnic grounds. Several different games and a candy buffet had been arranged for the picnic and amusement of the children. A wagon load of refreshments was taken along. In addition to the regular picnic lunch they had watermelons, ham and ice cream. Dr. P. O. Chaudron went along to see after the little fellows in case of sickness or accident.

More than a hundred little hearts were made glad and a score of tired mothers enjoyed this first annual picnic of the Salvation Army.

This rapid growth of facilities for teaching agriculture has not extended over the whole of the sixteen year period, but has been more marked in the last four years and most rapid in the last two years. Four years ago the agricultural educational service in the office of experiment stations listed less than three hundred and fifty institutions as teaching agriculture two years ago, less than nine hundred, now about two thousand six hundred. And while sixteen years ago, or even ten years ago, the public high schools were hardly thought of as effective agencies for the education of the rural people along vocational lines at the present time they educate more than 30 per cent of the students engaged in teaching agriculture, not including, of course,

And those jobs are strenuous. Some of them require you to go to work as early as nine o'clock and stick to it all day long, or through the night.

Bad Manners That's All
An American waved the United States flag, in a defiant and insulting way before a regiment of German soldiers on review and threatened for the American flag the soldiers thought they had the right to do. They pointed to the American flag and hissed at him and in the midst of this tumultuous scene the American flag was torn and trampled upon. Now some of the hysterical journalists want the government to protest. The state
